Beth,
Can you confirm that all we need to analyze for is just TCLP Metals?

Gentlemen,

I spoke with Demita about the analysis on these two tanker trucks. She was fine with the 407 data however she did state we would have to prove the metals in TT408 didn't leach out. Secondly, she was going to have her approvals group look at the data and see if they had any other issues with the material based on the remaining data. Let me know if you have questions otherwise I'll be in touch as soon as I hear from Demita.

Thanks,

Beth Crawford
